Masonic Picnic at Glover's Lake

A joint picnic of the Masonic Lodges of Oyen, Almont, and Lovena, and the Eastern Star Lodge of Oyen, was held last Wednesday at Glover's Lake, north of Sibbald.

Ideal weather favored the pioneers and over two hundred Masons and their families were present to enjoy the day's outing.

Big Gas Well

The new gas well brought in by the Northwestern Utilities in the Viking field east of Edmonton is the biggest producer in the field, it has been established. The production is close upon 10,000,000 cubic feet per day, much more than any other well in the field.

A number of Oyen people who attended the Cereal Chautauqua, comment very favorably on the program.

Mr. and Mrs. A. Johnson returned to Oyen last Friday after spending a vacation at Calgary and Banff.

New Cleaning Machine

Farmers of the province will be able to obtain this fall, at actual cost of manufacture and handling, the machine which has been perfected under the supervision of the provincial department of agriculture, known as the Stephen Green Separator Cleaning Attachment, which cleans weed seed from grain as the operation of separating is proceeding. This announcement is made by Hon. George Hoadley, Minister of Agriculture.

Preparations are being made for the manufacture of a considerable number of these machines, and these will be made available before the coming threshing season at a price to cover actual cost of manufacture and handling. The machine has not previously been offered to the public. When the machine is placed on the market it will be properly labeled and advertised in order that the farmers may know that this is the machine fostered by the department.

Legislature Meets August 3.

The adjourned session of the Legislature of Alberta will be called August 3, to deal with the question of the Peace River Railway and other matters. A session of only a few days is expected.

Governor-General Goes North

Lord Byng, Governor-General of Canada and Lady Byng with official party, left Edmonton, Monday, July 13, for the northland and will make the round trip to Akavik on the Arctic Ocean.

Premier Greenfield of Alberta who was to have been a member of the party, was not able to go on account of pressure of business.

Big Elevator for Lethbridge

The Ellison Milling Co. plans a million bushel elevator for the city of Lethbridge, where it has a milling plant.

Peace River Railway Outlet

That both transcontinental railways have found the cost of constructing a through line for a coast-outlet from the Peace River country prohibitive, was the statement made by Premier Greenfield at the conference of western men in Edmonton the past week. Mr. Greenfield gave this information as the result of his conferences with railway officials in the East.

Urge Marines To Revolt

Red Propaganda Directed At British Fleet Visiting Norway

The arrival of a British fleet for a visit to Oslo was marked by intensive demonstration by Norwegian communists. Secret appeals were made to the blackjacks and the marines.

"Rise in revolt, rather than obey your government if you are ordered to make war on Russia," was one message directed at the crew of the British ships by local communists.

The appearance of the inflammatory propaganda directed the British fleet visiting Norway was resented deeply by the Norse Government as well as the British officers and crew of the fleet. Russia has objected to the presence of a British fleet in northern waters and the propaganda is taken to have been inspired by Moscow.

Victim Of X-ray Research

English Doctor Forced to Give Up Practice is Dangerously Ill

Dr. T. H. Henderson, M.D., of Weymouth, an X-ray martyr, has had to give up practice and go into a London nursing home for an operation in which his life is at stake.

Throughout nearly the whole of his professional life, Dr. Wells has been handicapped by injuries sustained in the early days of his career in experimental X-ray research, by which he was badly burned in the leg.

Dr. Wells is one of the best-known surgeons in this part of the country, but few have known of the intense pain and crippling disability which he suffered in recent years.

Settlers Build Their First Home

European settlers building their first home on the lands of the British Dominion Land Settlement Corporation, north of Vermilion, Alberta.

Remarkable Land Settlement Plan

Influential British Company to Assist Settlers and Promote Colonization

The Vermilion district in central Alberta is this summer the scene of a remarkable and most promising development in land settlement. The undertaking referred to is that of the British Dominion Land Settlement Corporation Limited, a powerful financial organization formed in London, England, for the express purpose, as its name implies, of promoting land colonization in the Overseas British Dominions and particularly in this Dominion of Canada. This company represents a new departure in the way of assisting agricultural families of small means who desire to establish themselves on the land. Backed by millions of Old Country money, it provides the right kind of farmers with land on easy terms and aids them in equipping these farms and getting thoroughly established thereon.

The high character of the company is indicated by the Board of its British directors, which includes: The Duke of Sutherland, chairman; the Hon. Sir Robert Borden, M.P.; K.C.M.G., former prime minister of western Australia; the Right Hon. Sir Arthur Gifford Boscawen, formerly minister of agriculture in the British cabinet; Sir Edward Manville, chairman of the great Delmar Motor Car organization; Sir Robert Lenn, M.P.; Col. A. G. Conlon, O.B.E.; and Mr. Mervyn Brown. These names in themselves, furnish a guarantee of the standing of an organization which has for its object the use of British capital in assisting to develop and people the vacant spaces of the empire—an ideal which has seized the mind of the British people especially during the last few years.

To be specific, the British Dominion Land Settlement Corporation Ltd. is more than ever recognized that the future of the Mother Country lies in the growth of the outlying parts of the empire. The Canadian board of the corporation is constituted as follows: Mr. Mervyn Brown, chairman; Sir Robert Borden, M.P.; Allan, Kilham & McKay, Winnipeg; Mr. W. H. Carter, of Carter, Hall & Aldinger, Winnipeg; Mr. W. P. Dutton, Vancouver; and Mr. Isaac P. Blado, K.C., as special counsel.

Mr. T. D. Dodge is general manager. To be specific, the British Dominion Land Settlement Corporation sets its land at fair prices and on fifty-year terms, with no cash for three years except interest on the taxes, the principal to be discharged during the remaining twelve years of the period. Besides giving land on such reasonable conditions, the corporation advances a section of dollars to every one dollar put up by months of occupation. Surpluses for the money thus advanced the corporation takes back a five-year chattel mortgage on which only interest is payable for two years, thus leaving the principal to be discharged in the third, fourth and fifth years of the loan. To be acceptable to the corporation, the farmer must have a family or at least be a married man. The corporation is cutting and stacking logs for sale to settlers on five years' credit, thus making it easy for the newcomer to erect a shelter for his family without delay. When it appears necessary, the corporation advances necessary food for the family and feed for the animals during the first months of occupation. Supervisors in the employment of the company constantly circulate among the settlers, keep in touch with their needs, and assist them in any assistance wherever such is called for.

It will thus be seen that the company offers an exceptional opportunity to (1) the married settler who possesses livestock and equipment and wishes to have a home of his own; (2) to the married farmer laborer who wishes to become a land owner; and (3) to the married farmer who, owing to the present unfavorable location, has suffered from drought, floods or frost. While the British Dominion Land Settlement Corporation extends its operations to other parts of western Canada, it has chosen the fertile section of central Alberta as the scene of its first undertaking. In this area it has become the outright owner of 262,000 acres of land. Of this land about 150,000 acres consist of sectioned lands, half-sections and quarter-sections lying between the Vermilion and Saskatchewan Rivers with the town of Vermilion as the chief distributing point. The rest of the company's holdings lie west of the town of Edmonton. Driving north from Vermilion through the main east block, one encounters a series of rolling hills and valleys, the hills green with verdure and dotted with darker green clumps of trees and brushwood. The landscape is interspersed with small lakes and is thus an exceptionally attractive one. The prevailing soil is a black loam with a clay sub-soil.

The area is served on the south and north by two lines of the Canadian National Railways. As a result of the influx of settlers the Canadian National Railways is extending its St. Paul de Meis branch across the north part of the company's property, and the Canadian Pacific Railway is extending its Lloydminster branch towards the west of the company's lands.

English Boy Has Peculiar Skin

Any Marks Show Clearly For Ten Or Fifteen Minutes

His unusual skin will always provide means of identification for a Dockhead schoolboy. The skin appears quite normal in color and texture, the same as that of other people, but it has the strange property of being able to retain for ten or fifteen minutes any mark made on it by slight pressure or any word scratched by a finger.

An examining doctor said the boy had a very peculiar skin which, when slightly stroked by the finger, showed definite marks. It was, he said, possible to write one's name on the boy's skin and the marks would remain for 10 or 15 minutes. A very slight caressing would show "tremendous results." The marks were various, but in this condition, one being that the person suffering from that condition was "one skin short."

Substitute For Glass

Latest Chemical Discovery Is Much More Transparent

The latest chemical discovery is a substitute for glass, made from purely organic materials. It seems to have many attractive properties, being much stronger than glass, so that it can be worked on a lathe into all sorts of required shapes. It can be colored for decorative purposes, but the most interesting thing about it is that its refractive index can be varied over a wide range, making it very suitable for optical instruments. It is replacing very expensive kinds of glass in telescopes and microscopes. Another interesting optical point of it is that it appears to be much more transparent than glass to the invisible rays—ultra-violet and infra-red light.

Planning Antarctic Flight

Australian Explorer Hopes to Make Continuous Photographic Map

An Antarctic flight is planned by Capt. G. H. Wilkins, who recently returned on a ship from the continent. The plan is to explore the coastline from King Edward the Seventh Land, south of New Zealand, to Graham's Land, south of Cape Horn. He hopes to make a continuous photographic map. He explains that the work is a preliminary to the inauguration of a comprehensive international scheme of Antarctic photography. Captain Wilkins, who was one of Captain's optical photographers during the war, has distinguished himself by many daring feats.

Discoveries Strange Race

Explorer Finds White Indians in Jungles of Brazil

White Indians who evinced no surprise at seeing a hydroplane or other modern things, although armed with only bows and poison arrows and living in a primitive state, were shown by Dr. Alexander Hamilton Rice has seen in Brazil.

On his return from his seventh expedition to Brazilian jungles, he said that finding the Indians at the waters of the Parana River, 70 miles distant from the headquarters of the Orizaba. Their faces were streaked with pigment, but they impressed the explorers as being undeniably white.

The Indians are understood and speak a distinct language of their own. "They move in and out between the trees like 'agars' without making a sound or causing a rustle of the leaves," Dr. Rice said.

They refuse to eat meat and drink entirely on plants and bananas.

Mistakes in London Statues

Many Peculiar Errors Have Only Been Recently Noted

Peculiar mistakes in London's statues have been compassed upon in a recent magazine article which notes the following facts: "The statue of the Duke of Wellington at the Royal Exchange has neither spur nor stirrup. Gladstone, in the house, has a seam from one trouser leg, an oversight which the best traditions of the House of Commons is wearing upside down." And also asks: "What is the archer decorating the west side of the new County Hall doing with his bow in the wrong hand? Why does the soldier in the war memorial outside the Royal Exchange perpetually offend peace regulations by standing at ease with his hands crossed at top of his rifle barrel? Why does the Prince Consort in Holborn Circus, raise his hat in salute—a thing no self-respecting field marshal ever did."

CLIPSE FASHIONS

Exclusive Patterns by Hazel Rogers

An Attractive Version of the Over-bouse

Lace edgings and narrow tucks elaborate the tailored blouse of today. One cannot have too many attractive blouses to wear with separate skirts, thus creating the smartest two-piece frocks. The model pictured here was made of white crepe-de-chine with groups of narrow tucks in the front and back and open all the way down the centre front. The full-length sleeves are finished with a tulle-trimmed cuff. The pattern is perforated for short sleeves and provides for a variety of styles. Skirt 34, 36, 38, 40 and 42 inches bust. GOVERNMENT IS PROCEEDING WITH THE FRUIT PROBE

Ottawa.—The return by the Royal Canadian Mounted Police of the books of several western fruit companies may be the first step by the government in the investigation of the fruit trade based on the findings of the Duncan commission under the customs investigations act.

J. C. McRae, K.C., who is conducting the case for the Federal government, has been in recent conference with Hon. James Munnick, minister of labor, but when approached declined to state what the next action would be.

The report, which found that a fruit combine existed, was tabled in the House of Commons by the minister of labor on February 15.

Under the act the provinces concerned are given three months in which to take up the prosecution. In the case of the attorney-general of the four western provinces indicated that they would prefer to have federal action taken, but promised co-operation. The matter is now in the hands of the department of labor and justice.

Present Dealing With Chinese Firms Risky

Exporters Warned By Trade Commission in Shanghai

Ottawa.—Canadian exporters are advised to take extreme care in financial transactions with Chinese firms at the present time, in a message published in the Commercial Intelligence Journal from L. M. McGraw, Canadian trade commissioner in Shanghai. In view of the disturbed conditions in China at the present time, it is advisable that the greatest care be taken by Canadian shippers in regard to financial transactions with Chinese firms, "states the message.

Shippers should be made aware that through irrevocable letter of credit, particularly as the dock and shipping situation is extremely uncertain," says the bulletin, which is dated June 15.

Combat Rust Menace

May Eradicate Germs But As Result Of Experiments

Winipeg.—Favorable progress has been made by the research department of the federal commission working toward the eradication of cereal rust, according to L. H. Newman, Dominion cerealist.

More than 180 tests were being carried out at the present time on experimental and practical forms. "In the fall," Mr. Newman said, "our biological research work should result in our obtaining several rust cultures. We shall then be able to artificially inoculate varieties of rust resistant wheats and so obtain valuable data. If the wheats when sown with these cultures resist infection, the grain, Mr. Newman declared, would certainly prove immune in the wheat fields of the prairie.

Would Overthrow Mussolini

Alleged International Campaign Against Fascist Regime

London.—The Daily Telegraph reports the existence of an energetic international campaign to overthrow Mussolini and the Fascist regime in Italy.

"Devil international forces from Wall Street to Vienna, and from Milan to Moscow," it says, "are working to this end, and they have adopted methods akin to those practiced by the Bolsheviks, introducing their own set against the foreign trade unions. That is to say, capitalists of the forces in question have been enrolled in the ranks of the Fascist for the purpose of sowing dissension and demoralization."

Ask Recall of Ambassador

Teheran, Persia.—Reports in well-informed circles here saw that because of pressure of the great powers, China will ask Moscow to recall Mr. Karakhan, the Russian ambassador to Peking.

M. Puteeff, chief of the eastern section of the Soviet foreign office, will have shortly to re-evaluate his "health." M. Puteeff, however, diplomats say, will leave vacant a post in which Karakhan would fit admirably.

Dutch Farmers Coming

Montreal, Que.—"Hundreds of ambitious, college-trained Dutch farmers will probably come to Canada next spring," said R. J. Dudge, graduate of the Groningen Agricultural College of the Netherlands. He has just conducted a tour of western Canada and said Hollanders make fine farmers and planters.

Wheat Pool Builds Elevators

To Construct Thirty More Elevators At Saskatchewan Points

Regina.—Construction of a further 30 country elevators at points in the province where it is found impossible to purchase suitable houses has been authorized by the executive of the Saskatchewan wheat pool.

Contracts have been awarded, under the authority, for the following elevators at the following locations: Swift Current, Lussland, Borden, Semans, Airdrie, Valer, Coppen, Shannan, La Pêche, Limerick, Hardy, Melvay, Ravenseng, Spring Valley and Gravelbourg.

It is found impossible to purchase suitable elevators. It is anticipated that new country elevators will also be built at the following points: Birchburg, Uren, Oult Lake, Palo, North Hlgar, Kibbey, Weyburn, Fox Valley, Success and Moberly.

Anxious To Extend Knowledge Of Empire

Members of British House of Commons Coming to Canada

London.—A number of members of the British House of Commons will shortly arrive in Canada, the understanding being given them as members of the United Kingdom branch of the Empire Parliamentary Association by Premier Baldwin, to extend their knowledge of other parts of the world in the House of Commons is not in question.

The large party, which includes the wives of several prominent members, will attend conferences of the Inter-Imperial Union at Washington and Ottawa.

They will leave England September 18. Right Hon. Ramsay MacDonald, prime minister, hopes to go to Canada this fall, if other arrangements will allow. According to his present intention, he will leave on the Magsite, October 2.

Canada Wins Mackinnon Cup

Made Highest Score at Bingley; England Came Second

Bingley, Eng.—Canada won the Mackinnon Challenge Cup, open to teams of 12 at 900 and 1,000 yards, ten shots and one sighting shot per man at each distance, time limit one hour and a half.

Canada's score was 1,084 out of a possible 1,200. England scored 1,065, Scotland 1,061. The prize in the Mackinnon event is a challenge cup given in 1893 by the late Col. Mackinnon, a Scottish sportsman. The prize will be given by the National Rifle Association to the captain and adjutant and each member of the winning Canadian team.

Council On Marketing

Manitoba To Have New Body For Co-operative Marketing

Winipeg.—Formation of an advisory council on co-operative marketing in Manitoba was announced by Premier Bracken. The purpose of the council, as outlined by the premier, is to establish a closer working arrangement between the various marketing units already existing.

The council also would provide a body where practical experience and knowledge will be pooled for mutual benefit and advancement of sound co-operation. N. C. MacKay, director of the Pacific agricultural extension, has been appointed chairman.

Elevator For Lethbridge

Lethbridge, Alta.—An announcement was made by George W. Green, general manager of the Elgin Milling and Elevator Company, of plans to erect here, this fall the first unit of a million-bushel storage elevator, with double and triple elevators, and handling 20 cars daily. The company will also add to its line elevators by erecting three in the Lethbridge neighbourhood.

The Elgin Milling Company is financed by Utah capital.

Italy Has Right Idea

Rome.—There is always a good attendance at the sessions of the Roman senate, in marked contrast to the many empty seats at meetings of the Canadian senate. Italian senators are paid only for the sessions they attend.

Start New Air Mail

London.—New air mail service is now in operation between London, Denmark, Norway and Sweden.

First Child Welfare Congress

Canada Will Be Represented At Geneva Conference In August

Toronto.—First in the history of mankind will be the International Congress on Child Welfare to be held in Geneva from August 24 to 28, plans for which have been completed. This great undertaking, organized by the Save-the-Children Fund International Union, will see a remarkable gathering, one that represents more than 10 nations will convene for the purpose of considering and making practicable plans for the benefit of the children of the world, who will then be studied as the people's first need, to be given first preference in all cases where the welfare of the child is concerned.

The keynote of the discussion and debate will be what is known as the "Declaration of Geneva," or "The Children's Charter," which Canada has already signed in company with most other nations, and adopted by the League of Nations in September, 1924.

Canada has already become interested in "Child Welfare" through its connection with the International Council of Women. Canada too has worked from coast to coast in the interests of the Save-the-Children Fund, and the Dominion will be represented at the congress by Paula Velox, Canadian representative of the fund.

Alaskan Village Hit By Flu Epidemic

Entire Indian Population Affected and Eight Have Died

Juneau, Alaska.—Eight natives are dead and the entire population affected by an influenza epidemic, which has swept an Indian fishing village on the coast of Alaska. The village is situated in the district reported. Conditions in the region have been improved, "but most of the Indians have been sick unable to fish and will suffer during the coming winter, if not aided in some way," the report said.

PREMIER KING SAYS NO DATE SET FOR ELECTION

Ottawa.—Premier Mackenzie King states that there would be no decision to come to an election for some time to come. The premier made this statement at the conclusion of a cabinet meeting which was attended by but five members of the government.

These presenters, in addition to the premier, were Mr. H. G. G. Graham, minister of railways and canals; Hon. Ernest Lapointe, minister of justice; Hon. James Munnick, minister of labor; and Hon. A. B. Cope, secretary of state.

Mr. King said that the meeting had been called for the purpose of disposing of a number of routine matters. These presenters, in addition to the premier, were Mr. H. G. G. Graham, minister of railways and canals; Hon. Ernest Lapointe, minister of justice; Hon. James Munnick, minister of labor; and Hon. A. B. Cope, secretary of state.

"When will the next meeting of the cabinet be held?" he was asked.

"Not for a couple of weeks," he replied.

When asked whether there had been any decision in regard to the calling of a general election, the premier laughed.

"You may be quite sure of one thing. There won't be any decision in regard to an election for a good time to come," he replied.

THE WHARF AT MINAKI INN

The fire dream was visited to the Canadian Weekly Newspaper Association delegation when they passed Minaki Inn, where 18 members of the party were to have spent Saturday and Sunday as guests of the Canadian National Railways. However, some of the members of the party were able to secure reservations at Minaki Lodge for a day or so on their return journey and this is a sample of the scenery which greeted them there.

EXPRESS FEAR OF FUEL SHORTAGE NEXT WINTER

Ottawa.—The Canadian consumer will be well advised to get a sufficient supply of whatever fuel he proposes to use next winter, without loss of time. This is the advice given by C. A. Magrath, who was fuel controller during the war, and as a member of the federal advisory fuel committee, and much to do with the arrangements looking to the protection of Canada's interests in the big United States hard coal strike of 1922.

"Scarcity has the fuel outlook seemed so threatening as at the present time," says Mr. Magrath in a statement recently issued. He points out that coal miners are on strike in eastern and western Canada, that there is possibility of trouble in the British coal field, and that there is every possibility of a bitter fight in the Pennsylvania coal region at the end of next month.

Want U.S. In World Court

Could Withdraw If Outlawry of War Not Upheld by European States

Washington.—Certain advocates of the world court, who have been working quietly for months, have come forward with a compromise plan of United States entry, which they will push between now and the time the administration proposals are brought up in the senate in December. The compromise has been looked up in its connection with President Coolidge's proposed conference on limitation of armament.

It provides for entry under the administration proposal, but with the understanding that the United States would withdraw from the court after a specified period, if the nations of Europe do not join in a general convention for outlawry of war.

Harvesters From Overseas

Reported That Over Two Thousand Workers Are Coming From Central Europe

Quebec.—Over 2,000 harvesters from European countries are expected to pass through Quebec on their way to the Canadian west from now until the fifteenth of August. The majority of them will be from Hungary, Rumania, Slovakia and Germany, and the remainder from other countries of central Europe.

In order to obviate the danger of these immigrants' becoming public charges when the harvest is gathered, arrangements have been made with western farmers to keep them on throughout the winter at a salary of \$25 a month.

Alberta Legislature

Will Meet August 3 to Hold Short Session

Edmonton.—The adjourned session of the Alberta Legislature will meet August 3, the last named of the seven days' period of the annual dates announced by the government.

This was decided definitely at a full meeting of the cabinet and steps are being taken accordingly for calling the house together.

Premier Greenfield says the session will necessarily be a short one. With harvest time drawing near, and there will be no desire on the part of the country members, at any rate, to prolong it, and quick work is expected.

Vancouver Welcomes Earl Haig

Great British Leader Pledge For Unity and Fellowship

Vancouver.—Unity of effort for the re-establishment of returned soldiers is all part of the British Empire, was advocated by delegates representing India, North and South Africa, Rhodesia, South and North America, and Great Britain at a dinner given here by a local reception committee to the members of Earl Haig's party, who attended the recent meeting in Ottawa of the Empire Service League, and who came to the coast with the field marshal.

The speakers included Brig.-Gen. F. McDonald, Brig.-Gen. James Wylie, of South Africa; Senator James Connell, of Australia, and others.

The great British leader, in plain language and with modest demeanor, with a manner that left no doubt as to his sincerity of purpose, exhorted all his service men to unite under the one banner in friendship, and to pursue a purpose that would make for the British Empire and the upbuilding of world peace.

"In the interests of liberty, justice and good fellowship and peace, I hope it will not be long before Canadian service men will be united," declared Earl Haig, in his closing speech, amid applause that swept through the great building.

Alberta Rail Loss

Over Seven Million Dollars Damage Is Reported Already

Edmonton.—More than seven million dollars damage by hail has been done to grain crops in Alberta this summer, according to information received by the provincial department of agriculture. The department has been investigating the situation and has been getting reports from all the rail insurance companies and municipal hail insurance board, which go to show that about 3,000 claims for damage by hail have been received to date.

Mr. George Headley, minister of agriculture, points out that at a fair average of 100 acres per claim and on the basis of total loss, as usually figured by the insurance companies, with an estimated value of \$150 per bushel of wheat, there will be a loss of \$25 per acre, or \$7,500,000 as a total loss, to be deducted from the province's grain crop this year.

A Long Cruise

Canadian Government Vessel From Vancouver Reaches Atlantic Ports

St. John, N.B.—The Canadian Government vessel, the *Marine*, a Canadian Maritime Prospector, Captain Arthur Thomson, has arrived in port from Vancouver, via the Panama Canal, on the 11th inst. in the international service. The ship brought a full general cargo of 5,000 tons, including about four million feet of hard pine, a large quantity of the latter being piled high on the deck. After discharging at this port, she will take the remainder to Quebec, Three Rivers and Montreal.

TO FURTHER THE INTERESTS OF WESTERN CANADA

Edmonton.—The spirit of co-operation between the prairie provinces and the Pacific coast which has been developed in the conference of western mayors and other civic officials held here, is to be carried into a permanent organization as a result of a decision at the closing session. An executive committee of six members was named, composed of Mayor L. D. Taylor and ex-Mayor H. H. Gale, of Vancouver, for British Columbia; Mayor Hamilton Leitch, of Regina, for Saskatchewan; Mayor Edmondson, for Alberta; and Mayor Howard McLaren, of Billings, and Mayor J. R. Ormory, of North Battleford, for Saskatchewan. This committee will have power to add to its number, and it has been instructed to make the work begun and to arrange for further conventions at future dates.

After a lengthy discussion, it was decided that the government be asked to abolish the permit system for the shipment of grain westward. An amendment sought to refer the question to the senate as a permanent committee for action, but Mayor Taylor, Mayor Blatchford, and G. G. McEwen, K.C., argued strongly that the conference take action at once in urging that the system be abolished, and the shipper be given the same privilege of shipping to the west that he now possessed to ship to the east.

BRITISH CABINET IS DIVIDED ON NAVAL PROGRAM

London.—Recent efforts in the House of Commons to induce the government to reveal the naval building programme were repeated, but without success, in debate on the naval estimates. It is generally understood that there has been a sharp conflict between Winston Churchill, chancellor of the exchequer, who desires to keep the estimates down, and the admiralty, which wants a cruiser-building programme extending over a period of years.

Apparently divided councils prevail in the cabinet, which has not yet reached a unanimous decision, although it is rumored that Mr. Churchill has consented to his laying down of five new cruisers this year.

The subject was discussed in the House of Commons, with much advocacy of another disarmament conference. W. C. Bridgeman, first lord of the admiralty, could only reply: "Premier Baldwin's previous promise to make a statement on the question about a week hence."

Will Hear Cases In West

New Commissioner of Reformation Leaving Ottawa About August 1

Ottawa.—The new reformation commissioner, James Price, K.C., will leave for the west to hear cases about the first of next month.

His itinerary includes stops for hearings at Regina, about August 5; Saskatoon, August 7; Edmonton, August 10; Calgary, August 12; Kamloops, August 17; Vancouver, August 18; and Victoria, August 24.

The dates are necessarily subject to change, depending on how long the commissioner is required to stay in the different cities which he visits.

Canada's Motor Car Production

Lower Than In 1923 But Exceeds Other Years

Ottawa.—The production of a total of 122,500 motor cars during the past year, a decrease of nine per cent. from the maximum attained in 1923, but exceeding in number the production of any other year.

The output in 1924, according to the Dominion Bureau of statistics, included 88,265 passenger cars, 18,043 trucks, and 16,172 chassis, valued in the aggregate at \$8,480,415, at factory selling prices. Capital invested reached a high point in the industry at \$60,000,000, as contrasted with slightly more than \$60,000,000 in 1923.

Heavy Loss From Hail

Approximately 350,000 Acres Damaged

Regina.—Between 1,000 and 1,500 farmers will claim insurance aid as the result of the hail damage to crops in southern Saskatchewan by the cyclonic hailstorm last week, it was estimated by insurance companies' officials. The claims will range from 20 to 100 per cent.

From reports received from the districts visited by the hailstorm, approximately 350,000 acres were damaged, and the loss on this acreage will average 50 per cent. A large number of farms reported total losses of 100 per cent, and very few were as low as 10 per cent.

Harvesters From B.C.

Victoria, B.C.—Officials of the British Columbia department of labor are preparing now for the annual flock of harvesters to be attracted by the cyclonic hailstorm last week, it was estimated by insurance companies' officials. The claims will range from 20 to 100 per cent.

From reports received from the districts visited by the hailstorm, approximately 350,000 acres were damaged, and the loss on this acreage will average 50 per cent. A large number of farms reported total losses of 100 per cent, and very few were as low as 10 per cent.

Liberal Regime In N.S. Ends

Halifax.—The 16-year-old regime of Liberal Government in Nova Scotia has ended, and for the first time in that period a Conservative administration, headed by Hon. N. S. Rhodes, has taken possession of the historic provincial building and occupied the administrative chambers.

Killed By Own Invention

Bedford, Calif.—Graden Morau was killed by his own invention, a death-holdup man, who had devised a method for concealing in the coat sleeve a gun which would be discharged automatically by the wearer as he stepped at the command of the rubber.

Granaries, New Buildings or Additions

The policy of many thousand lumber yards in the Prairie Provinces, is to line-up as far as possible, their fall business, and order from the mills accordingly. This is necessary to avoid carrying unduly large stocks. As it takes from two to three months to get these orders filled, it will be readily seen that the yards which order "light", may not be in a position to fill orders for customers who do not plan ahead.

Plan your building program now and get material while our stocks are complete.

Make MORE Money with CASE Machinery

Your Best Investment

Your best investment is the one that makes you the most certain profit. With a Case Steel Thresher you have two chances to increase your income—not only this year, but for many years to come.

You can thresh your own grain better and when in the best of condition—and you can make money doing the same good work for the neighbors.

Efficient—Case machines are noted for their fast, clean threshing of all crops.
Thrashes All Grains and Seeds—From peanuts and beans to the finest grass seed.

Built of Steel—A strong steel frame holds bearings in the and prevents warping and twisting. Steel covering and steel construction contribute to great strength, easy running, dependability and long life.

Durable—The average life of a Case Thresher is easily twenty years. Most of the first steel machines sold in 1904 are still in use and the machines made today are even more durable.

Service—Dependable and prompt service facilities insure Case owners against possible delay at threshing time.

Threshing with your own machine is profitable. An investment in a Case Machine makes this profit larger and more certain. If you want to make more money at farming come in and get facts and figures about Case threshers.

Seventh Crop Report

Issued by Department of Agriculture, Government of Alberta, Edmonton, Saturday, July 18, 1925.

The preparation of this, the seventh crop report issued by the Department, is approached with reluctance, owing to the complete change which has taken place in the crop situation throughout the province, even since the report of two weeks ago.

The hot, dry weather mentioned in the report two weeks ago has continued with even greater intensity, and relieved very little by rain. The consequence has been that the growing grain in practically every district of the province has been affected more or less, and the first estimates of crop yields have been tremendously reduced. The very heavy plant growth of the early part of the season has in itself been responsible for the more rapid draining of the store of moisture from the soil during the hot spell, than would have been the case with a lighter crop.

The dry, hot weather is continuing with high records of temperature, and with little indication of relief from rain, with the result that every day is having its effect upon the grain.

Sections of southern and the east central parts of the province are once more facing the prospect of a crop failure. The latest report received from the experts of the Department who have been making careful analysis of the situation, are to the effect that in certain districts where on summer-fallow land yields of between 30 and 40 bushels were anticipated a fortnight ago, not more than 10 or 12 bushels can be obtained if rain comes soon to relieve them. On stubble land and spring plowing in these areas the yield will range from three to ten bushels an acre.

These conditions apply to almost the entire light soil areas of the province, but more particularly to the southern portion of the province from Cardston east to Medicine Hat, and north to the main line of the

PUBLIC NOTICE

Sale of Lands

As the following lands viz. N.E. 21-27-4, N.E. 9-27-4, N.E. 3-28-4, N.W. 3-27-4, N.W. 19-27-4, N.E. 24-27-4, N.W. 23-27-4, N.E. 32-26-4, N.W. 32-26-4, and the S.W. 1/2-27-4, have been forfeited to the Municipal District of Cereal 212 under the provisions of the Tax Recovery Act of 1910. The municipality is prepared to sell these lands for cash or on reasonable terms. The municipality is prepared to give a clear title to these lands. For particulars apply to J. P. Horaback, Sec-Treas., Municipal District of Cereal, No. 242, Oyen, Alta., July 10, 1925.

C.P.R. Reports from these districts on Thursday, July 16, were that the intense heat with the easterly winds still continued. Lethbridge, Macleod and Glenwoodville districts will yield fairly well if rains come soon. Cardston district has suffered badly. Magrath and Raymond districts are fairly good.

The big crop section from Tabor east to Medicine Hat, south to the border and north to the Red Deer River, has suffered badly and will experience very light yields. This is the case also with some of the light soil areas to the east of Edmonton. The rest of the province has maintained growth fairly well, but is suffering now under intense heat.

On Wednesday, July 15, the estimate made by the Minister of Agriculture for the province anticipated a total yield of around 80,000,000 bushels of wheat, based on an estimated yield of 14 bushels an acre, on the acreage of 5,570,000. This was based on knowledge of the actual facts, and was confirmed by the estimate issued by the officials of the Alberta Wheat Pool, based on the situation a few days earlier, which placed the anticipated yield at 84,000,000 bushels. In the lapse of the few days since these estimates were issued, the situation has been rendered even more critical, and the estimates will as a consequence undergo another revision.

It is with no desire to be pessimistic that the department issues the above statement, but merely with the intention that the facts be made known. The summary is based on careful reports made by experts of the department who have been over the ground during the past few days.
